49 DROWN AS S.S. MONROE SINKS

Old Dominion Line Loses Its First Passenger as Ship Crashes With Nantucket

VESSELS COLLIDE IN FOG OFF DELAWARE COAST

Wireless Calls Aid Out of the Darkness—Vessels Speed to Scene of Distaster

NORFOLK, Va., Jan. 30.—Forty-nine persons are unaccounted for today, following the loss at 1:40 o'clock this morning of the Old Dominion Line steamship Monroe off the southern coast of the Delaware and Maryland peninsula in a collision with the Merchants & Miners' Line steamship Nantucket. The Monroe carried a full complement of lifeboats and rafts and therefore many may have been saved, but it is feared the majority of the passengers went down with the ship. Wireless messages say the Nantucket picked up eighty-five of the Monroe's complement, including Captain Johnson.

The Nantucket with the survivors of the collision arrived at 2:30 o'clock this afternoon. No passenger was fully clad. The women wore night dresses, and the majority of the men were in pajamas when the ship docked. Federal Industrial Commissioner James O'Connor, who was picked up in his underclothes, rushed down the gang plank searching for a phone to inform his wife in Washington of his safety. The majority of the survivors are ill from shock and exposure and it is feared five will die.

The liner Hamilton is standing by, and the cutter Onondaga and several tugs are rushing to the scene of the collision, which occurred in a dense fog. The Monroe was cut almost in half and sank within twenty minutes. The Nantucket was badly crumpled in the collision and is taking in water, but is believed to be safe. Both ships sailed from Boston.

The Monroe weighed seventy-eight hundred tons, was 344 feet long with beam of 45 feet. It was built in 1913. The life-saving capacity was 183.

Story of the Wreck

The Nantucket was steaming at half speed with the siren sounding through the fog at half minute intervals. The Monroe's siren was also plainly heard but in the mist the Nantucket's captain mistook the position of the other ship. Both Captains Berry of the Nantucket and Johnson of the Monroe were on their respective bridges when the crash came. Suddenly those on the Nantucket's deck saw the Monroe loom out of the fog scarcely a ship's length away. Capt. Berry reversed his engines and tried to pass astern the other boat, but it was too late. The Nantucket's prow crashed amidships into the Monroe and crunched its way deep into the doomed vessel's bowels with its own bows smashed and for the time wedged tightly. An instant later the powerful screw dragged backward and she drew off from the Monroe which keeled over and began taking in cataracts of water.

With hysterical prayers and curses the scantily clad passengers rushed on deck. Many were hurled from their berths and painfully hurt, and several were cut by the flying splinters. So quickly did the ship go down that many must have perished without having left their staterooms. The crew worked frantically but were able to get only one boat over the side before the ship rolled over and plunged downward. As she disappeared the boilers exploded with a muffled roar. As she inverted, the passengers and crew were left struggling for their lives. The majority of the saved wore life belts. Half of these were unconscious when dragged aboard the Nantucket.

The Nantucket's boats searched for two hours for survivors. The Nantucket, with her own bows admitting gallons of water, turned toward Norfolk only when it became evident there were no more survivors afloat. Enroute she met other rescue ships. She assured them she was able to make port. When she docked none but persons having business there were permitted on the decks.

The accident occurred in the Gulf stream, which is warmer than the surrounding ocean, thus undoubtedly saving many lives.

CITRUS GROWERS MEETING IN ONTARIO

Convention Called for Mealy Bug Emergency—Bug Found Not Destructive

300 RANCHERS GATHER FROM OVER SOUTHLAND

15 Experts on Program—Citrus Subjects Will Be Up for Warm Discussion

ONTARIO, Jan. 30.—With fifteen experts on the program and three hundred ranchers of various sections in Southern California attending, the emergency citrus convention today discussed the mealy bug.

The meeting was called by State Horticulturist Cook when the battle against the mealy bug in the Upland district was at its height. Since the bug there was found not to be destructive, the investigation has enlarged its scope.

LILLIAN RUSSELL CALLED HOME—HUSBAND IS ILL

NEW YORK, Jan. 30.—Mrs. Alex Moore, better known as Lillian Russell, left last night for Pittsburgh, being called there by the sudden and serious illness of her husband.

An operation was performed Tuesday for a growth upon the neck, but it did not prevent Mr. Moore himself from telephoning his wife.

HAVILAND SUED BY U. S. FOR \$1,200,000

WASHINGTON, Jan. 30.—The government brought suit yesterday against Theodore Haviland & Co., importers of china, to recover \$1,200,000, alleged to be due on imports which were undervalued by fraudulent invoices.

RADIUM PATIENT, MISS QUAYLE, IS IMPROVING

BALTIMORE, Jan. 30.—Miss Margaret Quayle, daughter of Bishop Quayle of the Methodist Episcopal church, who is receiving radium treatment here, is gaining in strength, according to a statement made by her mother.

No information could be obtained as to the condition of Congressman Bremner, who also is undergoing radium treatment.

MINERS TO DEMAND INCREASES

PHILADELPHIA, Jan. 30.—Demand for a ten per cent wage increase for coal miners were to be formulated today at a district meeting of the United Mine Workers of America. Patrick Gilday, district president, was to preside. In sounding the keynote of the meeting today Gilday declared that the operators, with whom their contracts expire April 1, are practically certain to grant the increases to be demanded. He predicted that the increases would go into effect by February 1, and that the same wage raises will be granted in other Pennsylvania districts. The operators today declared that the calling of a convention of the miners for February 24 was done in the hope of forcing a meeting of the wage scales committees of both sides later in the month in order that when the present contracts expire there will have been a month of disagreement over wages, which, according to the contracts, would give the men the right to strike without automatically breaking the agreements.

POPE HAS DIFFICULT PROBLEM

ROME, Jan. 30.—Pope Pius is again in troubled waters as a result of European politics. Servia, whose territory has been doubled as a result of the two recent Balkan wars, has just sent to Rome a commission to negotiate a concordat with the Vatican. Personally, the Pope is most favorably disposed toward Servia, Austria, however, which is the Vatican's strongest friend among the big European powers, has for the past century been trying to crush the little state that is always trying to create a great Slav empire on her southern border. Austria also enjoys from the Vatican the position of protector of the Catholic church in the entire Balkan peninsula. She has lodged an emphatic protest with the Pope against this diminution of her power and the increase of that of Servia, which would result from a concordat with the Vatican. Pope Pius gives no indication of just how he is going to get out of the difficult position.

Bulletins of News

Hot from the wire up to 3:30 p.m.

THE WEATHER

Fair tonight and Saturday; frost tomorrow; light north winds. Frost warnings are renewed, and smudging in exposed places is advised.

Would Push Physical Valuation of Railroads

WASHINGTON, Jan. 30.—To hasten the physical valuation of railroads, the Interstate Commerce Commission has asked Congress to appropriate \$2,000,000 for continuing the work next year.

Ring Lost Two Years Ago In Field Is Found in Potato

SAN DIEGO, Jan. 30.—Plunging a fork in a baked potato, Roderick Holmes, a rancher, yesterday found a sapphire ring his wife lost in the fields two years ago.

Judge Willis Named Law Instructor Southwestern

LOS ANGELES, Jan. 30.—Judge Frank R. Willis of the superior court was yesterday appointed instructor in criminal procedure at Southwestern University College of Law, to begin with the spring term, Tuesday.

Palo Alto Well Yields "Color" Gold

PALO ALTO, Jan. 30.—Well drillers working on a new auxiliary well here Wednesday brought to the surface glittering sands, believed to be "color" gold. The sand is to be submitted to an assayer. The find was made more than 100 feet below the surface.

Ohio Appropriates \$100,000 for Panama Exhibit

COLUMBUS, Jan. 30.—The state Senate yesterday afternoon passed the House bill appropriating \$100,000 for an Ohio exhibit at the Panama-Pacific Exposition.

AUTO OWNERS, ATTENTION!

If your car starts hard these fresh mornings, have one of Kaufmann's primers put on and you will start easily; \$3.50 put on 417 North Broadway. A woman can start the car. Chas. Kaufmann, Machine Shop.

VILLA'S CAVALRY LEAVING OJINAGA FOR SOUTH AFTER VICTORY

Having captured Ojinaga and routed the whole northern army of General Huerta, General Pancho Villa, the most prominent figure in the Mexican rebellion, started his cavalry south for Chihuahua, or perhaps Torreon.

This may be the beginning of the march into Mexico City with this force he may overwhelm Huerta. Anyway, he has announced that since the north has been won over he would not delay his march on the capital.

troops. If he is able to march to the gates of Mexico City with this force he may overwhelm Huerta. Anyway, he has announced that since the north has been won over he would not delay his march on the capital.

SMELTING TRUST FACES ACTION OF U. S.

Evidence Justifies Federal Suit for Dissolution of \$150,-

000,000 Combine

WASHINGTON, Jan. 30.—After months of quiet investigation the department of justice has concluded that it has sufficient grounds for a suit to dissolve, under the Sherman antitrust act, the American Smelting and Refining Company, the so-called smelting trust.

It is not probable that suit will be filed immediately, but it is understood the preparations have gone so far that a bill in equity is being drawn by department attorneys.

It became known last night that F. W. Lehmann, former solicitor-general of the United States, had been retained by the so-called trust, and it is possible that he will confer with the attorney general before the department files suit.

Suit against the smelting "trust" is regarded here as of great importance, rivaled only by the Standard Oil and the Steel Corporation suits. The American Smelting and Refining Company and the American Smelters Securities Company, which it controls, have a combined authorized capital of nearly \$150,000,000.

"DRYS" AND "WETS" IN FIGHT TODAY FOR SAN BERNARDINO

SAN BERNARDINO, Jan. 30.—This city is voting on the liquor question today. The "drys" were active after a vigilant campaign, and the "wets" appeared sanguine. The "drys" are making charges of fraudulent registrations. Following the issuance of eight warrants yesterday at their instance they threatened arrests today.

I want to say to the delegates that Samuel Gompers is not entitled to a seat on this floor. He is nothing more nor less than a confirmed booze fighter.

Gompers leaped to his feet in a white rage and advanced towards McDonald, shouting:

"McDonald is an unmitigated liar and knows it."

The other delegates kept the men apart.

LIUAN-CHOW SACKED AND BURNED BY 2000 BANDITS

SHANGHAI, Jan. 30.—A force of 2000 bandits sacked and burned yesterday virtually all the city of Liuanchow, in the province of Ngan-Hwei. W. E. Entwistle, with his wife and children, succeeded in escaping to Luchow-Fu, but the Catholic missionaries are still in the looted city, although it is believed they are uninjured.

BOXERS AT CLEVELAND

CLEVELAND, Jan. 30.—Seven amateur boxers, the best St. Louis can boast of, arrived here today prepared to meet a coterie of Cleveland amateurs at the Cleveland Athletic Club tonight. This is the fifth interclub contest held here this season. There will be seven classes, ranging from 108 pounds to 190.

PROGRESSIVE PARTY MAKES BIG SHOWING; GOV. JOHNSON JUBILANT

SAN FRANCISCO, Jan. 30.—Governor Hiram Johnson was jubilant today over the strength the Progressive party is showing throughout California in the 1914 registration race. Although the Republicans so far have been in the lead, the governor expressed confidence that his party will overcome this difference before the registration books close on May 27.

Up to date the Republicans have shown the greatest strength in Los Angeles and San Diego. In each place they lead the Progressives by about 100,000 voters. In San Francisco the Republicans are about 400 ahead, and the Democrats about half a hundred.

Seventeen centers of population recently showed the Republican registration to be 97,061; Progressive, 71,25, and Democrats 54,26.

"The figures show," said Governor Johnson today, "a phenomenal registration of Progressives. Here is a new party, that in a few days registers almost 2000 more members than

one of the old parties, and 2600 less than the other old party. The present registration represents only about one-twenty-fifth of the total vote that will be cast in November, when a full state ticket and a successor to United States Senator Perkins will be elected.

I expect the Progressive candidates to poll more votes than the combined vote of all other candidates.

"When it is understood that registration does not mean voting strength of candidates in any respect, and that most of the people register from force of habit or tradition, the enrollment of the California Progressive party is nothing less than astounding. The Republicans and the Democrats have already shown how they fear the results by their present activities. On the other hand, the Progressive party has not done one-half the work that the other parties have done, and it has shown better results."

GOMPERS FORMER "BOOZE FIGHTER"

McDonald of Illinois Attacks Famous Leader in Mine Workers' Convention

INDIANAPOLIS, Jan. 30.—A clash between President Samuel Gompers of the American Federation of Labor and Duncan McDonald of Illinois enlivened today's session of the United Mine Workers' convention. After the meeting was called to order McDonald took the floor and declared:

"I want to say to the delegates that Samuel Gompers is not entitled to a seat on this floor. He is nothing more nor less than a confirmed booze fighter."

Gompers leaped to his feet in a white rage and advanced towards McDonald, shouting:

"McDonald is an unmitigated liar and knows it."

The other delegates kept the men apart.

"COMMERCIAL EXPEDITION" RETURNS FROM LONG TRIP

NEW YORK, Jan. 30.—The American commercial expedition, composed of prominent manufacturers and financiers, members of the Southern Commercial Congress, were expected to arrive here today after the most extensive trip ever taken through South America in the interests of fostering trade relations between United States and South America. The "commercial expedition" sailed on November 1 from Mobile, where the 1913 Southern Commercial Congress was held. The expedition visited twenty-one of the largest cities of Brazil, Chile, Argentina, Republic, Colombia, Peru, Uruguay, Bolivia, Ecuador and several Central American countries.

HEAT IN PITTSBURG KILLS AGED VETERAN

PITTSBURG, Pa., Jan. 30.—The temperature here yesterday afternoon reached 72 degrees. Sanford H. Ferree, aged 79 years, of Coraopolis, civil war veteran, was overcome by the heat and died of exhaustion.

FRANCE ASKS \$400,000 FOR PANAMA FAIR EXHIBIT

PARIS, Jan. 30.—The French government today asked the Chamber of Deputies to appropriate \$400,000 for an exhibit at the San Francisco exposition.

CHARLTON TRIAL PUT OFF

LAKE COMO, Italy, Jan. 30.—The trial of Porter Charlton, the American charged with wife murder, was postponed today until June, the judge ordering a minute investigation of Mrs. Charlton's mental, moral and physical condition at the time of her death.

It is understood that the postponement is due to the court's belief in Charlton's declaration that his wife was sexually abnormal and possessed a dual nature. Sensational revelations are expected from the investigation. Public sentiment is with Charlton.

CROOKSHANK-BEATTY COMPANY

SOFT PLACES IN THE ROADS

Garden Grove Got Over Four
Inches of Rain During
the Storm

GADDEN GROVE, Jan. 30.—The rainfall for the last storm, according to the Garden Grove Lumber Company's water gauge was 4.22 inches. Some of the roads in this vicinity are very soft and some holes in the road are cut quite deep. Several machines had to be pulled or pushed out yesterday, much to the amusement of the school boys, who assisted in the work. Two especially bad places are near the school grounds, where the road is very soft.

The wedding of Miss Eva DuVaul and Frank Winters, which was to have taken place at Redlands, was solemnized at the DuVaul home today. The wedding party intended going to Redlands by machines but on account of the heavy rains it was impossible to do so. Rev. Hull officiated. A large number of friends were present and many beautiful presents were received.

Mr. and Mrs. K. G. Stark went to Los Angeles on Saturday to visit friends and relatives. Mr. Stark returned on Tuesday and Mrs. Stark will remain the rest of the week.

Mr. and Mrs. Will Lytton of Whittier were visitors at the home of O. F. Smith last Friday.

On account of the high water in the river the high school scholars from west of Santa Ana, who have to go on the cars, are delayed about one hour each morning as the car leaves at about 8:50 instead of 7:50, as it did previous to the heavy rains.

A surprise party was given by Miss Irene Wade at her home last Friday evening in honor of Ross Kilkenny's birthday. Refreshments of cocoa and cake with olives and candies were served. There were about twenty present and a very enjoyable evening was spent by all.

The revival services closed last Sunday evening. All who attended were benefited. The meetings were conducted by Rev. Hull, the local pastor.

TRIAL JURIES DISCUSSED

NEW YORK, Jan. 30.—"The deterioration of the Trial Jury" was the principal topic scheduled for discussion at the thirty-seventh annual meeting of the New York State Bar Association, which today opened a two days' session. Former Judge A. T. Clearwater read a paper on this subject in which the defects of the system were pointed out, especially those which arise during criminal trials. Former Judge Alton B. Parker, once Democratic candidate for President of the United States, presided. The annual address was to be delivered at Carnegie Hall by former Chief Justice Cullen of the Court of Appeals. Other subjects of discussion will be "Trial of Impeachments," and "Workmen's Compensation." A paper on "Some Features of the Income Tax Law," by Congressman Cordell Hull of Tennessee, and reports from various standing and special committees were scheduled. The convention will close with a dinner in honor of former Chief Justice Cullen at the Hotel Astor tomorrow night. Former Judge Parker will preside and there will be many notable speakers present. The officers of the association are: Judge Parker, president; Frederick E. Wadham, secretary, and Albert Hessenberg, treasurer.

Morrill Bros.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Every body uses this old famous recipe, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Correctly fitting glasses are made by Dr. Loerch, 116 East Fourth.

BOY IS DEAD OF HIS BURNS

Hot Water Poured Over on Him
Two Weeks Ago Brought
Death

Yesterday Raymond E. Padias, the little son of R. B. Padias, of Villa Park, was buried. The child died as the result of hot water burns received two weeks ago.

The accident occurred at W. H. Brown's ranch at Villa Park. The boy was two and a half years old. Some member of the family had a pot of boiling water on a table in the yard in which a chicken was dipped before being picked. The person picking the chicken stepped into the house for a minute, and while away a dog playing about the yard jumped upon the table and knocked over the pot of boiling water. The water fell upon the little boy, and his heavy clothing held the water so that the burns were a good deal worse than they would have been had the water merely struck the bare skin.

The child lingered for two weeks before death came.

GRAY HAIR BECOMES DARK, THICK, GLOSSY

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Hair Remedy." You will get a large bottle for about 50 cents. Every body uses this old famous recipe, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

SOCIETY AND CLUBS

Christian Endeavor Week
Next week is Christian Endeavor week. The first meeting, to be held Sunday evening at the Presbyterian church, will be at 6:30, and will be in charge of the lookout committee, Rev. E. W. Blew following with a special Christian Endeavor sermon.

On Monday night a C. E. social will be held in the church. All young people in Tustin are invited to attend. This is to be a special reception to the young people who do not now belong to the Christian Endeavor.

On Tuesday night all are invited to an Orange county rally, to be held at the Presbyterian church in Orange.

Thursday there will be a rally in connection with prayer meeting.

Friday night the Christian Endeavorers are to hold a joint meeting with the Loyal Workers at the Advent Christian church.

Saturday night is decision night; meeting led by Ross Shafer. Herbert Rankin will speak.

Literature Section
The Tustin Literature Section of the Ebell will meet with Mrs. J. T. Hight, Tuesday afternoon, Feb. 3.

Coresis Club
The Coresis Club will meet with Mrs. Elsworth Mount next Wednesday afternoon.

Nightingale Club
The Nightingale Club will hold its next meeting Friday evening, Feb. 6, with Mrs. A. L. Swarthout.

The W. C. T. U.
The meeting of the Tustin W.C.T.U. was attended by about twenty-five ladies Thursday afternoon, and the spacious living room of the Phinney home was filled to overflowing. In addition to these, there were several young ladies who took part in the program.

The meeting opened with singing a very effective song from the temperance hymnbook, "The Crisis." The roll call was responded to by those present with scripture verses. This was followed by reading of minutes and the treasurer's report, which were approved and also a communication from the corresponding secretary.

The subject of a donation to Ransom Home was discussed. As there was but little over \$2 in the treasury, a motion was made to take up a collection, which was done at once, and something over \$4 was received. It was then moved that enough be taken out of the treasury to make the sum \$5 and that this be sent to Ransom Home as a donation for the work there. The motion was carried.

Mrs. Harry Lewis gave instructions as to subscriptions to "Mother's Magazine."

Mrs. Cranston made a motion that as the next meeting is to be a Framers' Willard Memorial meeting, all the members be given the opportunity to contribute something to the subject without a special leader. The

TUSTIN PERSONALS

meeting will be held at the home of Mrs. Harry Lewis on Thursday, Feb. 12, and all the members are urged to attend and come prepared to make the meeting an interesting one.

Mrs. Phinney then gave a message from a former member, Mrs. C. A. Tuttle, who is now living at Heber, Imperial Valley, saying she had succeeded in organizing a union at that place. A motion was made and carried to send greetings to Mrs. Tuttle.

A communication from the State Dry Federation was read by Mrs. Sarah Brown urging the ladies to organize a 1914 Dry club here at Tustin, but the matter was passed without action.

A report from the all-day prayer meeting held Jan. 15, showed a very good attendance in spite of the rainy day.

All business attended to, Mrs. E. Utt and Mrs. S. E. Tingley took charge of the meeting, which was a special mothers' meeting. Mrs. Tingley led the devotional exercises, reading the last chapter of Proverbs. Prayer was led by Mrs. P. H. Ebel. Mrs. Utt announced the subject: "Children in the Home," and called on Misses Alice and Inez Phinney for a song, and the sweet old song, "Home, Sweet Home," sung as a duet by these two young ladies, was most fitting and beautiful.

Miss Minnie C. Childs then gave a full and interesting history of the founding of "Mothers' Day," that is, the national observance on the second Sunday in May, on which to celebrate the birthday of the best mother in the world—"your mother." It was founded seven years ago by Miss Anna Jarvis in Philadelphia.

Mrs. Utt then called upon the ladies to give their different opinions about keeping the home together and at the same time keep in touch with the multitude of good things to go outside the home. Expressions of many interesting opinions followed.

Miss Margaret Tingley, accompanied by Miss Childs, sang descriptive memories of childhood at home.

The meeting adjourned, but the members were detained by Mrs. Phinney and the young ladies present—Misses Gertrude Utt, Mabel Logan, Margaret Tingley, Inez and Alice Phinney—served refreshments of delicious nut and fruit salad, chocolate and cake.

All members are urged to come to the next meeting and all who have not yet paid their dues for last year are urged if possible to bring them to this meeting, which will be held with Mrs. Harry Lewis.

Surprise Party

A party of friends of Mrs. Harry Kiser went over to Orange last Friday night to give her a surprise on the occasion of her birthday. Mr. and Mrs. Kiser were formerly residents of Tustin, but are now living at Orange, where Mr. Kiser is employed as assistant engineer at the Orange waterworks.

The party was given by Mr. and Mrs. John Kiser of Tustin and the invited guests were Mr. and Mrs. Vernon Matthews, Misses Mabel Reihl, Gladys Stearns and Alice Matthews, and Messrs. Harry Reihl, Dudley Kiser and Harry Brookbank, all of Tustin, and Mr. and Mrs. Frank Langford and Mr. and Mrs. Williams of Orange.

Progressive whist was the attractive game for the evening. The first prizes were won by Mr. and Mrs. John Kiser, and were a hair receiver and a handsome deck of cards, the consolations going to Miss Mabel Reihl and Mr. Langford.

The refreshments served were coffee, sandwiches, cake and apples.

Missionary Society

The Home and Foreign Missionary Society o. the Advent Christian church held a very pleasant and profitable meeting at the parsonage last Tuesday afternoon. Besides transacting the business of the society a beautiful comfort was completed.

Household Economics

On account of the rain this week the breakfast which was announced to be given to the Household Economics Club on last Wednesday morning was postponed until Wednesday, Feb. 4, when Mrs. W. L. Leihy and Miss Minnie C. Childs will give the breakfast to the Economics Club at 11:30 o'clock in the forenoon, at the home of Miss Childs. All members of the club are cordially invited to attend.

**OLD TUSTIN HOTEL
IS TO BE WRECKED**

The families who have rooms at the Tustin hotel have had notice to vacate by the seventh of February, as the building is to be torn down by a wrecking company. The ground on which it stands has been bought by the school trustees and the supposition is that this is to be the site for the new school building.

The hotel is a relic of the boom in Southern California in 1887. A company was formed composed of a number of prominent citizens of Tustin. This company was styled, "The Tustin Improvement Company," or a name similar. A tract of land was bought and upon one square of it the Tustin hotel was built. Other parts of this tract on the opposite side of E street were cut into lots and sold to different parties.

The hotel was built at a cost of \$50,000. George Preble and Chris McNeil were the architects. It was complete in every particular and up-to-date. It was then sold to a Mr. Johnson, who came from Texas and brought colored help to serve as waiters, bell boys, etc. A ball was given at the opening and launching of the hotel.

Although Tustin had a street car line out from Santa Ana at that time, owned and run by M. J. Bundy, the patronage of the hotel was not enough to make it pay. Mr. Johnson ran it for a short time only, and the company finally took it back. It has changed hands several times, and from time to time has been used as a rooming house. The purpose for which it was built, the accommodation of tourists, has never been realized and no one seems to regret that it is to be torn down.

CHURCH NOTICES

Advent Christian Church

Sunday, February 1.

Sunday school, 10 a.m.; communion service, 11 o'clock; Loyal Workers' convention meeting, 6:30; preaching at 7:30; subject: "Deaths of the Bible."

Prayer meeting Thursday evening,

7:30, choir practice to follow.—R. H. Shannon, pastor.

Presbyterian Church

Services will be held as usual next Sunday morning, with communion service, which was postponed last Sunday.

PACKIE McFARLAND AND MIKE GIBBONS, CLEVEREST BOXERS IN WORLD, WHO ARE EXPECTED TO MEET SOON

PACKIE McFARLAND
MIKE GIBBONS.

The coming fight between Packie McFarland and Mike Gibbons, the cleverest boxers in the world in any division, will be one of the most interesting contests seen in the ring for many years—if it is not a fake. McFarland is undoubtedly the cleverest boxer in the ring. Few men of the past have equalled him. Jim Driscoll, the wonderful little featherweight of England, who spent several months in the United States knocking out lightweights, and young Griff, the Australian, now a ruin of the bar-room, were his superiors. But it is doubtful if other clever men of the past, men like Jim Corbett, Jack McAuliffe, or Joe Gans, were clever as mere boxers.

Gibbons has faked so much that it is quite impossible to grow very enthusiastic over the match.

McFarland has faked so much that it is quite impossible to grow very enthusiastic over the match.

He has permitted such boxers as Owen Moran, Abe Attell—both much lighter—and Tommy Murphy, a fine second-rater, to stay ten rounds with him. In fact, he has come very near saying that he did not try to knock out his men—which is faking. He says he will make 142 pounds for Gibbons.

It is very doubtful if he makes 145, despite the fact that he has been posing as a lightweight. Gibbons, in his last fight, weighed 152½. Some of his friends think he can make 145 easier than McFarland.

Gibbons has been a revelation since he has shown himself out of St. Paul, his home. No middleweight in the ring now, and perhaps none since Tommy Ryan, has proved himself as good a boxer. Men like Ketchel and Walcott, and Langford—when he was in the middleweight class—might have whipped him, but they would have had to go some to do it.

McFarland has faked so much that it is quite impossible to grow very enthusiastic over the match.

At the ball game which occurred on the Tustin school grounds last Friday afternoon between El Modena and Tustin school base ball nines, the score was eight to seven, in favor of Tustin. The grounds presented a lively scene for a while. Many friends of the El Modena boys came with them in automobiles and they had a great game.

The boys of the school themselves built a strong back-stop last week just back of the baseball diamond, out of material furnished by the board. This is for the protection of the other children on the grounds.

At the county examinations held recently the pupils did much better than at the first examination by the county for this year.

**IMPROVEMENTS IN
TUSTIN'S BAKERY**

The Tustin Bakery is opening a new department. Quick lunches will be served in connection with the bakery goods. About Sept. 15, the large new concrete store building for the Tustin Bakery was finished with oven and all necessary modern appliances, and since that time the business has been conducted by Mr. and Mrs. C. H. Eaton. The bread is fine and the cakes, pies and other goods have been just as good, and very generally satisfactory.

Lately there have been so many calls for lunches with fresh, warm drinks that it was thought advisable to put in a lunch counter and several tables where coffee, tea, chocolate, and anything that can be prepared quickly for lunch, will be served. The lunch counter has already been well patronized, and it will no doubt fill a need in Tustin. Drummers and strangers in town feel the need of it as well as workers in the orange orchards and packing houses.

The clean new bakery with a display of good things to eat is a very inviting place in which to lunch just now.

The Rain and the Mails

There were some disappointed faces to be seen around the post office for about two days and a half this week and there was nothing doing inside the postoffice at all. No mail could come in on account of the damage done by the storm. Tustin could be very thankful to get off with no more inconvenience than delayed mail, as there are other places that were not so fortunate.

The sunshine for the past two days has quickly dried the roads and this same sunshine is greatly appreciated, as the rainfall has about reached the stage where people said it was enough.

The sunshine for the past two days has quickly dried the roads and this same sunshine is greatly appreciated, as the rainfall has about reached the stage where people said it was enough.

ONE KIND OF INTERLOCKING DIRECTORS

A wide range of views is entertained in the business community as to the extent to which the so-called "interlocking directorates" should be forbidden. There is one species of business interlocking, however, in the smaller centers, to which few people would object, and which the new law should deal with very carefully if at all.

In the country town and small city, something like this frequently happens: The community needs a new bank, or one already in existence needs co-operation. A local manufacturer or other business man consents to take office in that bank, not from expectation of salary, and often with no hope of making money in bank stock. The time he gives to the bank's business is either given free or is ill paid. The bank could hardly live without the knowledge of local conditions and business judgment possessed by directors of this type, whose service is given almost entirely out of community spirit.

On the other side of the deal, the home bank has one or more men who devote their whole time to its work. They acquire the peculiar knowledge of human nature and acute forecast of financial conditions that goes with bank training. They are asked to serve as directors in local commercial enterprises. Their banking experience helps on such enterprises, and the returns are usually small for the time and thought given.

The new law soon to be passed by congress should be framed to meet the ills of "big business," and should deal cautiously with the more unselfish and public spirited exchange of experience so often seen in the smaller places. The two kinds of things may seem technically alike, but in effects they are radically different.

The so-called interlocking between great corporations is easily capable of abuses, and is condemned by public sentiment. In the life of the country town and small city there is none too much exchange of these services.

BORROWING ON LIFE INSURANCE

Half a million dollars of life insurance protection has been taken away from the wives and children of the country by the habit of borrowing on life insurance policies. These figures are the result of a recent investigation by the Life Insurance Presidents' Association.

Of course the eloquence of the life insurance agent accounts for much. It is easy to save money while his facile conversation runs on. Only a cigar or two less a day, and you have paid for a thousand or two insurance, according to age. Of course if you find you want the money, he plausibly adds, all you have to do is to borrow on your policy, which establishes your credit.

Under persistent solicitation, appealing to the feeling of moral obligation, many policies are taken out by men with no self-control in money matters. They never judge of an expenditure by its relation to their total income. If the money is in their pocket, it is right to spend it. The fact that a premium payment is due next month is ignored.

When a man borrows on his policy, he expects to pay it back soon. This investigation by the insurance presidents showed that few of these loans are even repaid.

The modern married woman is ill fitted to cope with the world. The time that might have provided her with a bread winning equipment, has gone to service to husband and children. It is a pretty mean-hearted man who does not do everything possible to leave some degree of comfort behind him, and to leave it intact, unmortgaged either by personal extravagance or business ambition.

For Frost Bitten and Chapped Skin
For frost bitten ears, fingers and toes; chapped hands and lips; chilblains, cold sores, red and rough skins, there is nothing to equal Bucklin's Arnica Salve. Stops the pain once and heals quickly. LOANS

List your money to loan. List your money wanted. Conservative appraisals. No misrepresentations. We want your business next time.

Frank Harris, 504 North Main St.

are starving that baby."

The mother was shocked and hurt.

"I nurse her every three hours," she protested.

"No doubt," answered the doctors, "that your milk is not nourishing her. Perhaps your baby are not strong enough. Perhaps your baby should have both the breast and modified milk. We will find out."

They did. That mother learned that her baby was drifting toward the dangerous rock of anemia. Her lesson in Babatology was how to alterate the breast milk with a bottle feeding of modified milk.

A third baby was what you would call a "fat boy." He was covered with the most "potable" creases, and his complexion was blooming, but he had such a scowl on his round face and he shoved everything and everybody away from him as if the entire world were distasteful. Mother said he had never been a really good nutured baby, and she didn't know why. But the doctors found out. The plump stomach of which his mother was so proud was not an indication of health but of undigested, unassimilated food, overfeeding.

At sixteen months, a baby's head, chest and abdomen should measure just the same, 18½ inches. This poor little laddie had an eighteen inch head, a seventeen inch chest and an abdomen measuring 19½ inches. And just by exploring with his finger, the doctor found an ugly little mass of undigested food down in one corner of that bulging abdomen. Of course, Baby wanted to shove people away. So do you, Grown-up, when you have a sick headache or a bilious attack. Here was a baby being overfed with milk, just milk, but milk not properly prepared.

And there you have it, rash, malnutrition and downright indigestion, all because three mothers did not know what was going on inside of Baby's tummy. We think so long as Baby has milk and nothing else, he is safe. Milk, even mother's milk, needs watching, and Babatology tells you how to do it.

The feeding of the baby begins before it is born. The condition of the new-born baby's stomach is largely determined by the condition of the mother's stomach before he comes into the world. That is why the expectant mother should guard her diet and her digestion so carefully during the precious months before her baby comes.

Any pronounced digestive trouble is communicated to the baby directly, and it comes into the world ill-equipped for its first month's struggle for existence. The vast majority of babies who die during their first year, die of inanition, mal-assimilation of food, indigestion and summer-complaint. The mother can start her baby right by keeping her own digestion in the best of condition. Some mothers, in the spirit of self-sacrifice, serve at the choicest food to their growing children, their hard-working husbands and sons. No expectant mother should deny herself the nourishment required to sustain her own strength and that of the little child so soon to be ushered into the world.

The natural, the best food for the new born babe is mother's milk. And the Creator has given the average woman strength to nourish her child in this natural way. Sometimes, directly after the baby's birth, the mother is very weak, then well-meaning but interfering relatives and advisers urge her to wean the baby at once, when with a little patience, the supply of milk would be ample. Unless the mother is anemic or suffering from constitutional or acute disease, the baby will thrive best on mother's milk. And the ability to nurse the baby until a safe time for weaning can be encouraged by careful attention to the mother's diet.

A well balanced diet, made up from a variety of foods which the mother craves, will nourish both mother and child.

Meat that is easily digested, like chicken, beef and lamb, is better than pork and veal. Fish may occasionally be substituted for meat, and eggs are desirable if they do not create a bilious condition. Green vegetables and fresh or stewed fruit, the mother should have in quantity. On the other hand, she should avoid excesses in diet, whether this be tea, coffee, sweets or pastries. Light desserts do no harm, but rich pies and puddings that keep the mother awake at night will have precisely the same effect on the baby.

No young mother should listen to what doctors call "old women's tales," bad advice about extremes in diet. At one of the contests, I heard a young mother say that she was drinking malt to make her milk more nourishing for the baby. And how she did hate that malt. It nauseated her every time she drank it.

When the doctors told her that anything which nauseated her would affect the baby in the same way, she was actually relieved. Yet she had been forcing herself to drink the malt, because an elderly neighbor had told her what wonders it had done for other women. Doctors, not neighbors, should be consulted in these problems of Babatology.

Another woman told me that she didn't see why her baby could not retain her milk. It curdled on his stomach. And she assured me quite solemnly that she never ate anything acid. She did love pickles and salads, and lemonade, but her nurse had told her she must not eat sour things while she nursed the baby. I heard the sensible doctor in charge of that contest tell her to go right along home and make herself a good fresh salad and eat it up to the last leaf of lettuce.

Her digestion craved acid, and her child actually suffered because her system was denied it. Acid to excess is dangerous, yes, but a balanced diet, never.

Another condition of the mother which will affect the baby's digestion is nervousness. A baby should not be nursed when the mother is angry or is suffering from shock of any sort. The mother who is very tired from her household duties should sit down and relax before nursing the baby. If she sips a glass of milk or eats a cracker or biscuit before nursing the baby, she will help his digestion.

So much for the general problem of diet for mother and baby. Next we will discuss the hours and quantity of food for nursing babies and then the care of the bottle-fed baby, subjects which students of Babatology must study very carefully.

"No," answered the physician, "it's a symptom of too rich food. You are either over feeding this baby or giving him food that is too heavy, giving him food that is too rich for him to digest."

And they went into the question of baby's diet then and there—Mother's first practical lesson in Babatology.

Again a mother presented a delicate, doll-like baby girl for examination, perfectly proportioned but under-weight, under-weight for its age. Exquisite as to silken curls and rose-petal cheeks, Baby leaned wearily against mother, watching the doctors languidly from eyes around which there were blue circles. Think of that! Blue circles round the eyes of a baby that had not yet celebrated its first birthday!

It did not take the doctors long to analyze that baby's trouble and to introduce Mother to her child's true condition.

"Mrs. S—" said the doctor, "you

49 DROWN AS STEAM-SHIP MONROE SINKS

(CONTINUED FROM PAGE ONE)

officers of the Dominion Line place the lost at forty-seven and the saved at eighty-six in the Monroe disaster. Of the saved, thirty-one were passengers and fifty-five were of the crew. Of the lost, twenty-five were passengers and twenty-four of the crew. The first wireless for aid was received at 2 o'clock this morning from both ships.

The cutter Onondaga replied: "Where are you? We will come." A long delay elapsed without reply when the Nanuckett gave the position, saying the Monroe had sunk. The fog then interfered with the wireless.

FIRST LIFE LOST SINCE COMPANY WAS FOUNDED

WASHINGTON, Jan. 30.—It is the

first time since 1867 that we have lost a passenger," said President H. B. Walker of the Old Dominion steamship line, commenting on the sinking of the Monroe. He declared the Monroe's life-saving efficiency was 100 per cent.

A JAPANESE DINNER

Santa Anans, Soon to Tour Orient, Honor Guests at Charming Function

Invited to a 5:30 o'clock dinner last evening at the John Cubbon home on French street at which Mrs. W. L. Bullard and Miss Margaret Orr were hostesses, Mrs. Gertrude Finley, Miss Lida Crookshank and Miss Celia Cotter were overwhelmingly surprised on walking into the Cubbon parlors to be confronted with a bevy of intimate friends gowned in fetching Japanese costumes, the hostesses being likewise attired. The merry surprise was made still more interesting when similar Oriental garments were provided for the trio with absolutely lavish profusion of assistance in the donning of them.

The Japanese motif prevailed throughout the house and table decorations, bamboo, papryus, Japanese lanterns and ropes of dainty artificial wistaria and chrysanthemums, blending with the Japanese costumes, creating an Oriental atmosphere suggestive of the real Orient so soon to be visited by the three ladies who were the guests of honor last evening. The appetizing chicken dinner was served on a table appointed with a Japanese runner, Japanese napery, and dishes of Japanese design in dainty blue. The fruit cocktail was served in blue cups, and the teapots at either end of the table where the hostesses, Mrs. Bullard and Miss Orr, presided over the pouring of the pure Japanese tea blend, were of quaint Nippon pattern. Rice was served with each course. Place cards were shaped as Japanese lanterns, and the names of the guests were inscribed on the cards in a perpendicular fashion. In the center of the table was a big jardiniere of cherry blossoms carrying the imagination to the Flower Kingdom itself. Tall crystal candles softly shaded, and the Japanese lanterns suspended in every nook and corner, furnished the only illumination. The salted almonds were in cunning Japanese cups that were guest favors. Music from the excellent Victrola belonging to Mr. Cubbon was furnished by that gentleman during the progress of the interesting dinner. Those at the table were Mrs. Finley, Miss Lida Crookshank, Miss Celia Cotter, the complimented guests, Mrs. Bullard and Miss Orr, the hostesses, Mesdames A. J. Crookshank, G. S. Smith, E. S. Wallace, Charles Hell, Warren Brakeman, Miss Margaret Wakeham and Miss Katherine Cubbon served.

The company spent the remaining hours in the parlors where the putting together of dissected Japanese postal cards proved a task requiring real intellectuality, not to mention patience, while a quiz on the geography, history and other aspects of Japan revealed to the guests how much they had yet to learn about the Sunrise Kingdom. All of those who puzzled last night over Japan's capital and even the meaning of the affluring name of the country, and various other apparently commonplace facts, are expecting to be fully enlightened as to all obscure points on the return of the tourists from the Orient.

Was Completely Surprised

In honor of the birthday of Mrs. E. A. Bell a number of intimate friends of Mr. and Mrs. Bell walked into the Bell home most unceremoniously last evening, surprising the good lady of the house. It is suspected that Mr. Bell was in the secret, but so he demonstrated the fact that he could keep a secret well, as Mrs. Bell was entirely astonished at the unannounced visit. The evening proved to be a merry one, games and music, and the serving of appetizing refreshments taken by the surprising party, making up a pleasing program of pleasure.

Those present besides Mr. and Mrs. Bell were: Mr. and Mrs. Frank Miller, Mr. and Mrs. Hugh Hill, Mr. and Mrs. W. T. Syester, Mr. and Mrs. Clyde Newton, Mr. and Mrs. Truman Knight.

Easter Sees Santa Ana

Miss Bessie Manor of Los Angeles and Mr. and Mrs. Earl Manor of Heron, Illinois, have returned to Miss Manor's home in the city, after a few days' visit with their cousin, Mrs. W. C. Dunlap, of 722 Cypress avenue. Mr. Manor has been here a little over a week from the east, this being his first visit to California. He said it was like coming into a new country—from winter into summer.

The rains prevented him from seeing much of Santa Ana, but he was around enough to cause him to wonder why there was not more "paper" money in circulation in this section.

SECOND ARTICLE ON BABYOLOGY TODAY

The second article of the Register's series on Babyoology appears in today's paper. That these articles are being widely read and are greatly appreciated is amply attested by the voluntary expressions to that effect that have been published in this column. Here is another such expression:

Orange, Cal., Jan. 24.
Editor Register:

We very much appreciate the splendid article on Babyoology published in last night's paper, and hope the good articles will continue. This article has been discussed among the mothers of Orange, and we want you to know of our appreciation.

Yours truly,
CLARA M. JONES.

Was Completely Surprised

In honor of the birthday of Mrs. E. A. Bell a number of intimate friends of Mr. and Mrs. Bell walked into the Bell home most unceremoniously last evening, surprising the good lady of the house. It is suspected that Mr. Bell was in the secret, but so he demonstrated the fact that he could keep a secret well, as Mrs. Bell was entirely astonished at the unannounced visit. The evening proved to be a merry one, games and music, and the serving of appetizing refreshments taken by the surprising party, making up a pleasing program of pleasure.

Those present besides Mr. and Mrs. Bell were: Mr. and Mrs. Frank Miller, Mr. and Mrs. Hugh Hill, Mr. and Mrs. W. T. Syester, Mr. and Mrs. Clyde Newton, Mr. and Mrs. Truman Knight.

BUNDY CASE WITH JURY—STATE ASKS DEATH PENALTY

Mrs. L. C. Skinner, mother of Mrs. H. G. Hull, who has been critically ill, is reported as being very low today.

Miss Genevieve Scheurer and Miss Avis Combs arrive here this evening from Los Angeles to be over Sunday guests of Miss Linna Yarnell. Both of these young ladies attend Westlake School, Los Angeles.

Walter Gulley spent yesterday in Los Angeles.

W. D. Walker of Santa Ana and Frank Mills of Santa Ana, spent today at Hanson looking at a land proposition.

Mr. and Mrs. H. O. Garlock of 801 South Sycamore have as week end guests Mr. and Mrs. S. W. Dant of their former home in Minnesota. The Dants will spend the rest of the winter in Southern California.

R. E. Dickinson, who has not been well for some time, has gone to Balboa Beach for a change and a rest.

Mrs. J. U. Kerner, with her daughter and son-in-law and Mr. and Mrs. Wilson of Chicago, who are visiting here, have been in Los Angeles visiting relatives for the past few days.

Mrs. O. F. Smith is visiting with friends at Huntington Beach.

Miss Viola Ruddell of Santa Cruz is visiting at the W. C. Dunlap home, 722 Cypress avenue.

Miss N. Belle Whitney of New York city, who is spending the winter in Los Angeles, is the week-end guest of Mrs. Oscar Whitney on South Birch street.

Mr. and Mrs. J. G. Quick returned last evening from their prolonged eastern trip. They have been absent for over four months.

Mr. and Mrs. L. L. Johnson of Amarillo, Texas, stopped over in Santa Ana yesterday for a short visit with Mr. and Mrs. C. W. Kimball. They were on their way to San Diego.

Mrs. E. L. Roberts has returned from Milford, Conn., where she was called two months ago by the illness of her mother.

Mr. and Mrs. Geo. Elberty, old Waterloo, Iowa, friends of Geo. Clausen, spent the day with him yesterday.

H. G. Hull arrived last night from his Kern county ranch.

Mrs. Otis Bridgford of South McWayne is visiting relatives at Fillmore for a week.

—O—

Arrival Anniversary

To celebrate her husband's and her own arrival in Santa Ana six years ago, Mrs. George Balderston yesterday entertained twenty-seven ladies at a Kensington party at the beautiful home of the Balderstons on South Main street. Greenery was used in decoration of the parlors and a lavender color scheme was carried out in the table adornment and in the dainty refreshments served after the games of whist played during the afternoon and in which Mrs. H. H. Reeves won first prize, and Mrs. Max Reinhaus was awarded consolation prize. Mesdames C. F. Crose and W. H. Crose sang several vocal numbers during the afternoon.

Mrs. Balderston will soon entertain with a whist party.

DR. WEBBER DENIES REPORT ABOUT THE EXPERIMENT STATION

Dr. H. J. Webber, director of the experiment station, states that the report sent out from Los Angeles to the effect that the choice for the citrus station had narrowed down to San Fernando, Covina and Corona is entirely unauthorized.

Dr. Webber said today: "No decision had been reached regarding the location of the station and there are certainly more than three eligible sites being considered. There is no authority whatever for such a report."

Riverside is still in the running and there is no occasion to be worried over extravagant claims made by other localities.

AT THE COURTHOUSE

COUNTY CLERK DUG UP \$284

Paits With Money Received as
Naturalization Fees in
Seven Years

Point of Law Raised by Finley
in Habeas Corpus Pro-
ceedings

County Clerk W. B. Williams wrote out a check for \$284 and turned it over to County Treasurer J. C. Joplin.

The United States supreme court has decided that the law that allows the county clerk half of the fees in naturalization matters is illegal.

The law is plain enough. It says that for each declaration of intention to become a citizen, the county clerk shall receive a fee of \$1 and for final papers \$4, and that half of the fee shall be sent to Uncle Sam and half shall go to the county clerk.

The law was put to a test in an action brought by the authorities against the county clerk of San Francisco, and was carried to the highest court in the country, with the result that the decision is that the county clerk's half goes to the county and not to the clerk.

The law allowing superior courts to have jurisdiction of naturalization went into effect seven years ago. In the seven years Williams collected \$284. After he received notice of the decision of the federal court, he went over his books, found out how much was due the state, and wrote out a check for the amount, \$284.

Habeas Corpus Matter

Attorney Steele Finley is making an effort to get Mike Romero out of jail. Romero is in jail because he failed to pay a fine of \$200 on a misdemeanor charge. Since he must serve one day for every \$1 of the fine, he seems likely to be in jail altogether 200 days, unless Finley makes good his contention in habeas corpus proceedings begun today. The matter will be heard by Judge West tomorrow morning. Finley contends that under the law Romero could have been sentenced to jail for only ninety days, and that a fine sentence that compels him to be in jail longer than ninety days is illegal. Romero has been in jail ninety days.

Time "Pape's Diapersin!" - In Five Minutes All Stomach Misery is Gone
Really does" put bad stomachs in order—"really does" overcome indiges- tion, dyspepsia, gas, heartburn and sourness in five minutes—that just— makes Pape's Diapersin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath toul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Dia- persin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvel- lous and the joy is its harmlessness.
A large fifty-cent case of Pape's Dia- persin will give you hundred dollars' worth of satisfaction or your druggist hands you your money back.
It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home— should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Adver- tisement.
400 FEDERALS KILLED IN CONCEPCION BATTLE

BROWNSVILLE, Texas, Jan. 30.—Four hundred federals were killed in the battle of Concepcion del Oro, Zacatecas, or were executed after being captured, according to an official report to constitutionalist headquarters in Matamoras yesterday. The rebels lost seven killed. Seventy were wounded.

Dynamite bombs made from cast-iron pipe were used with effect by the rebels. The battle lasted twenty-four hours. There was no destruction of property.

Marriage License
Frank Warr, 21, of Whittier, and
Rose L. Stroope, 21, of La Habra.

IN THE JUSTICE'S COURT

GAMBLERS ARE FINED IN JUSTICE'S COURT

Jury Found Them Guilty, and
Sentence Was Pronounced
at Once

Yesterday afternoon a jury that tried Rufino Lopez and Jesus Benites on a charge of gambling found the defendants guilty, and recommended them to the mercy of the court.

Justice Cox fined each of the Mexicans \$25, and suspended ninety days over them. One fine was paid and the other will be paid today or tomorrow. The men were arrested at Anaheim by Under Sheriff Law, Deputy Dean and others.

Battery Charge

Lester Hungerford, a former lineman for the Edison company, was arrested at noon today by Constable Jackson on a warrant for battery. It seems that Hungerford was fired from the Edison employ last Tuesday. Whether or not he imagined that Barry McPhee, another lineman, had anything to do with it is not known, but yesterday morning as McPhee walked into the yard with one hand in his pocket and a dinner pail in the other, Hungerford ran at him and before McPhee knew he was being attacked, struck McPhee in the face and knocked him down.

When Jackson arrested Hungerford he found a revolver on the man. Hungerford told Jackson there was one other person he wanted to "get." Justice Cox fixed Hungerford's bail at \$200 and set his trial for Feb. 9.

Coming Monday

Deputy District Attorney Koepsel has received a telephone message from the office of the State Fish and Game Commission in Los Angeles stating that Commissioner Connell, who is charged with killing more than the limit of ducks, will be here at 2:30 o'clock next Monday afternoon to plead to the charge. The case is in Justice Cox's court.

400 FEDERALS KILLED
IN CONCEPCION BATTLE

Rock and Fulton in "The Candy Shop," Grand Opera House, Feb. 3

AMUSEMENTS

"The Candy Shop"

Theatergoers of this city are promised a box of choice bon bons for the price of a package of fudge when "The Candy Shop" comes to the Grand Opera House next Tuesday night. This big fun, fashion and song show has been termed a musical celebration by the patrons of the new Gaiety Theatre in San Francisco where it played to the capacity of the house for eight straight weeks and afterwards duplicated its "Northland" success at the new Morosco Theatre in Los Angeles. The Anderson Gaiety Company of San Francisco is the producer of and sponsor for "The Candy Shop" and those who have seen the show in either of the above named cities, describe it as an intense musical comedy delight from the first rise of the curtain to the finale. Organized and produced originally in New York City last summer, the management was successful in getting together an aggregation of all-star principals, a supporting bevy of statuettes and beautiful show girl choristers and a bunch of attractive singing and dancing "ponies" and chorus boys, all of whom contribute to the production of a metropolitan atmosphere that unconsciously carries the average auditor back across the continent to the white lights of Bohemian Broadway. The coast cities have not been visited by a show this season that has achieved anywhere near the sensational success scored by "The Candy Shop" and the only same and sensible solution to this is that the Gaiety offering possesses a merit distinctly superior to its competitors. To begin with the play is an unusually well written vehicle, is staged with a lavish display and splendor, and the speaking parts are acted by a coterie of entertaining principals who have shone resplendently in recognized successes of former seasons. These include William Rock and Maude Fulton, America's premier travesty artists; Al Shean, Will Philbrick, Gene Luneska and several others of scarcely less ability and reputation. The advance demand for seat reservations to "The Candy Shop" show is already extraordinarily great and strongly prophetic of the local engagement being attended with early turn away conditions.

REV. DOWLING AT FULLERTON NOW

Former Pasadena Accepts
Call to Leadership of
Church There

Rev. Frank M. Dowling, formerly pastor of the Christian church of Pasadena, and well known as a humorous lecturer, has accepted a call to the Christian church at Fullerton and will take up his duties immediately. Rev. Dowling has been living on his ranch near Fullerton since giving up the Wilshire boulevard church in Los Angeles, and has been resting following prolonged work in church circles. During his time on the ranch he has been doing considerable evangelistic work. The church whose pastorate he has now taken, is of recent organization, having about two hundred and fifty members, but it is a strong society and the members are much interested in the work.

CHILDREN HATE OIL CALOMEL AND PILLS

California Syrup of Figs
Best for Tender Stomach,
Liver, Bowels

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

The large company surrounding Mr. Skinner is quite worthy of the star.

King's Life Long for all bowel trou-

bles. They gently and naturally re-

vulate your bowels and tone up the entire

system. Price, 25c. At all druggists.

Santa Ana Register

SANTA ANA, CALIFORNIA, FRIDAY EVENING, JANUARY 30, 1914.

WEEKLY REVIEW OF THE CITRUS MARKET

Chance of Frost Damage is
Remote—Rain Stops
Shipments

The Fruit World, in its review of the citrus situation, says:

"Rain and cloudy weather have checked orange picking this week. The packing houses are busy packing fruit that was picked before the rain, as it has been impossible to enter groves until the ground again becomes firm."

The chances of frost damage this season are remote. Climatic conditions have been such that the frost has been routed. The ground and the atmosphere are full of moisture, the trees are healthy and the oranges are well matured and in fine shape to withstand even severe cold. Smudging will be necessary only where there are young trees.

"Although the orange market is not what the growers and shippers would like to see, comparisons with conditions in January as a rule will show that the market is not as some reports would have us believe. January and February never do hold forth any great inducements as regard prices because of unsettled weather conditions in eastern markets; and, if growers and shippers stop to reason out market conditions so as to prevent any great glut of fruit on any one market, conditions will be materially benefitted."

"All kinds of prices and proposi-

Colonel Gorgas Nominated for Surgeon in Chief

President Wilson has nominated Colonel William C. Gorgas, chief sanitary officer of the Panama Canal, to be surgeon in chief of the army, and thus reward has come to the man who did as much as Colonel Goethals to make the canal possible.

His nomination is now before the senate, and there is little doubt that it will be confirmed after it has gone through the regular course in that body. The colonel is now in South Africa for the

tions are being made. We hear of small interior markets receiving car-loads of oranges on the consignment basis at prices that are ridiculously low, and it is doubtful as to the advisability of shipping fruit this way, with the chances of the grower getting anything, being as poor as they are.

Receivers are making no attempt to conceal their displeasure over what they term the "foolishness" of shippers and growers in sending navels eastward which barely pay for the cost of freight and necessary expenses at a time when Florida shippers are bending every effort to push their oranges to the front in seaboard markets and to relegate California navels to the background.

"F. O. B. prices at this time average from \$1.40 to \$1.65, according to sizes and district.

"The California lemon market is in good shape and compares favorably with most January markets, with the possible exception of last January, when prices were extremely high and ranged around \$6 F. O. B.

"There is a good demand for California lemons in all markets, and in spite of the heavy supply of foreign lemons, there being 127,000 boxes on hand and available for sale within thirty days, according to latest figures, as compared with 57,000 boxes a year ago, and 23,000 boxes two years ago same date. Foreign lemons have averaged from \$2 to \$2.10 in the eastern markets at the sales held this week.

"Prices on California lemons range from \$2.75 to \$3 F. O. B. for best stock."

**KRAEMER'S BROTHER
IS SAFE IN KANSAS**

Fullerton Tribune: Sam Kraemer expresses anxiety relative to the safety of his brother Jonathan, who owns a large cattle ranch in Durango. He said he had not heard from him for eight months, and the last letter appeared to have terminated so suddenly that he was apprehensive lest his brother had met with foul play. He was upon the point of telegraphing to the state department at Washington when a letter reached him this week from his brother, who had come out from Mexico and was staying temporarily in Lawrence, Kansas. Mr. Kraemer visited his brother in Durango three years ago, and at that time urged him to leave the country. During the past two or three years bands have driven off thousands of head of cattle and sheep from the ranch, and the life of the owner was at times threatened. While in the city of Durango a year ago Jonathan found himself in the midst of a hair-raising battle in the streets between Mexican factions. He made his escape in safety and returned to his ranch, only to be called upon some days later for another bunch of cattle. In the fight many were killed and their bodies lay promiscuously on the streets. It is not known whether Mr. Kraemer will come to California to visit relatives before returning to Durango. His losses on account of the revolution will aggregate a very large amount.

ALIMONY OFFER IN LONG-DRAWN DIVORCE CASE

CHICAGO, Jan. 30.—A proposition to pay Mrs. Grace Guggenheim \$78,000 alimony, or at the rate of \$500 a month since March 20, 1901, when she was divorced from William Guggenheim, of the mining family of that name, was made in Judge McGoorty's court yesterday by Steven S. McGregor, representing Guggenheim, as attorney.

HOW TO "BEAT" THE OSLER THEORY

Eat Red Pepper; Drink Gallon of Water a Day; Don't Stuff; Breathe Deeply

CLEVELAND, Jan. 30.—"Overeating puts more people in the graveyard than over-drinking." This is the basis of the longevity rules of Dr. W. P. Horton, prominent Cleveland physician, who is sixty years old but looks forty. He says he "feels thirsty," and on the old theory that "woman, poor thing, is as old as she looks, but a man's just as young as he feels," he says he is only thirty. Dr. Horton is "husky," clear-eyed, and the glow of health is reflected in his checks.

How to Beat Osler Theory

Here's Dr. Horton's health recipe: Eat red pepper. Eschew black pepper, tea and coffee.

Do not "stuff." Drink a gallon of water every day. Breathe deeply. Keep out of doors as much as possible.

"I have been making a study of folks for forty years," said Dr. Horton today. "The trouble with most of them is that they exist too fast. They don't live. In these days we don't really eat. We swallow pre-digested foods. We drink tea, coffee and other stimulants in ever increasing quantities. We exist in overheated, steam-heated atmospheres. We spend too much time in stuffy, unventilated street cars, and not enough in the open air. Our children skate in indoor rinks; our men play pool and poker in smoke filled rooms; our women play bridge in close drawing rooms. If there was more walking to school by children; walking at least part of the way to office by men, and walking to market by the women, we would all be better off. This artificiality is telling on us. Instead of controlling our muscles and nerves, our muscles and nerves control us.

"Such stimulants as coffee and tea contain ingredients, such as tannin, which close the glands which contain the fluids of life. These ingredients are contained in white and black pepper as well as in tea and coffee. Red pepper, however, has the opposite effect. It opens the glands and keeps the life fluid racing within us. In addition, it creates a thirst for water, which, by the way, is about as near the 'waters of youth' or the 'elixir of life' as has been found. It is almost impossible for anyone to drink too much water. The body cannot be flushed too often. Drink more water and eat less food, even of the right kind, and you'll see how much better off you are both physically and mentally."

**SALTS IF KIDNEYS
OR BLADDER BOTHER**

Harmless to Flush Kidneys and Neutralize Irritating Acids

Kidney and Bladder weakness results from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains to irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist, and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.—Advertisement.

Wonderful Cough Remedy

Dr. King's New Discovery is known everywhere as the remedy which will surely stop a cough or cold. D. P. Lawton of Edison, Tenn., writes: "Dr. King's New Discovery is the most wonderful cold and the most rapid remedy I ever sold in my store. It can't be beat. It sells without any trouble at all. It needs no guarantee." This is true, because Dr. King's New Discovery will relieve the most severe colds and coughs.

Lung troubles quickly helped by its use. You should keep a bottle in the house at all times for all the members of the family. \$6 and \$1.00. All druggists or by mail. H. B. Bucklin & Co., Philadelphia or St. Louis.—Advertisement.

A Potpourri of News and Views

From the Los Angeles Financial News

Financial Conditions

Before the Los Angeles Realty Board Thursday noon Stoddard Jess, vice-president of the First National Bank, delivered an address in which he gave his views regarding the business depression the past year throughout the country. As to the year 1914 Mr. Jess was optimistic. His subject was "Financial Conditions as they Exist." The meeting passed a resolution for the appointment of a committee of six to confer with local bankers regarding the establishment of a regional bank in Los Angeles. Other speakers besides Mr. Jess were Judge Albert M. Stephens and M. J. Monette, of the Citizens Trust and Savings Bank. Mr. Monette's topic was "The Relation of the Borrower and the Lender." He handled his subject in a splendid way, making a special plea for fairness toward the banks; he also urged co-operation of all interests with the banks, declaring that the strength of the banks is the strength of the community. Mr. Jess in his address spoke in part as follows:

"The year 1912 will go down in history as one in which many social and political changes have taken place, not only in our own country, but throughout the world. Among the most important problems that have presented themselves has been the shortage in money, the amount of available cash being insufficient to meet the demands. Nations, as well as individuals, have scrambled for its possession.

"The most prominent reason for the shortage has been the tendency to hoard money in Europe and India. It is estimated that in India alone \$400,000,000 has been withdrawn from the world's circulating medium by the people, who are frugal, economical to the highest degree and who having no use for banks in prosperous times, literally bury their money in the ground to await the time of famine and drought. Because of the war in the Balkans, threatening the peace of entire Europe, a similar, if not larger amount has been withdrawn and hoarded, leaving the banks abroad with very low reserves.

"New York was the cheapest money market in the world early in 1913 and Europe turned here to replenish its stores and took away \$100,000,000, since which time we have been cramped for money. Added to this the agitation and debate incident to the passage of the tariff bill, an unsettled condition of business became general. The effect of the tariff bill on our industries cannot be estimated until our manufacturers have had an opportunity of competing with foreign manufacturers.

"The agitation of the monetary and banking system of the nation in connection with the passage of the currency bill caused feelings of uncertainty and it is reassuring to know that the question is finally settled. While it is the opinion of bankers that the bill contains some fundamental errors, which may ultimately prove dangerous to the financial welfare of the country, it is now law and the bankers should, and undoubtedly will get squarely behind the measure and do everything in their power to make possible the success of its workings."

"The problems connected with control of public utilities by commissions have been another uncertainty cause. So long as the commissions have lowered rates, they have received the plaudits of the people, but these rates have already been lowered in many instances to a point where it is a question whether the tariff allowed will provide for the maintenance and improvement of these utilities."

Brief mention was made of the heavy loss sustained by the citrus growers caused by the freeze of last winter, the passing of the dividend of the Union Oil Company stock, \$15,000,000 of which is held in Southern California; the upheaval in the affairs of the Los Angeles Investment Company, involving many more millions and having a tendency to create a false impression of conditions in Los Angeles. It has proven that the attitude of the Los Angeles Realty Board, as at one time expressed, in favor of the enactment of an efficient Blue Sky law was correct.

Referring to the stories printed regarding the unemployed Mr. Jess declared that they were exaggerated and that even though business had been at its best there would have been more than a normal number of men unemployed. The factors causing this condition were due to the completion of the aqueduct, putting 4000 to 5000 men out of employment; the dismissal of a similar number with the completion of the Big Creek power construction of the Pacific Light and Power Company, and the influx of thousands of refugees from across the Mexican border, and yet, despite these things, the speaker showed that Los Angeles has met with steady growth in population, increase in building permits over all other years and was prosperous in other ways. A decrease in deposits amounting to \$11,000,000 caused the banks considerable trouble and criticism from those who did not realize this.

"We are now on the threshold of a new year," continued Mr. Jess, "the outlook for which seems brighter throughout the world. Peace in Europe and settlement of the currency issue, which has given people the confidence to believe that further upheavals will be almost impossible, are important measures for effecting the welfare of the nation. The changed attitude of the government in the regulation of 'Big Business,' because of the willingness of the trusts to abide with the Sherman act, will go far toward restoring confidence."

"Locally, conditions are excellent, with a bumper citrus crop, seasonable rains and other causes. The opening of the Panama Canal will bring more farmers and tens of thousands of new settlers affording development of our dormant valleys. The San Francisco and San Diego expositions in 1915 will make thousands of living advertising mediums for Southern California and our great State."

"The most profitable question we can ask today is: 'What can we do to help?' and our answer should be co-operation, the encouragement of our industries; the increasing of the pay rolls and trust in the bankers with the feeling that they will loan the funds under their control as freely as conservatism may permit."

How New Tariff Law Works

Treasury officials who expected to see the revenues fall off about \$45,000,000 a year under the workings of the new tariff law, have changed their belief and now declare that this estimate is excessive.

There were some who predicted the falling off would not amount to more than \$36,000,000 a year, which would give the Government \$9,000,000 more than was counted upon for 1914. Customs revenue fell off more than \$4,000,000 during November, but for December figures just out show the decrease over December, 1912, was only about \$2,700,000. Although Christmas business may account for the increase over November this year, it was pointed out the normal decrease from now on will run about \$3,000,000 monthly.

The total Treasury disbursements for December amounted to \$61,894,049, compared with \$62,698,269 for December, 1912, but the total excess of disbursements over receipts in December was nearly \$2,000,000 greater than in November. The net balance in the Treasury general fund on December 31 was \$11,854,317, and the grand total of assets in the Treasury, \$2,038,864,977.

Standard Oil Melon

The Standard Oil Company of Kentucky has carved a Christmas melon in the shape of 200 per cent cash dividend.

\$10,000,000,000 Farm Yield

There are six million tillers of the soil in the United States. During the year 1913 the products which they produced amounted to ten billion dollars, a net income for them of five million dollars. It was a record year for farmers, the most successful one so far as crop value is concerned, in the history of husbandry in America. All this from 6,000,000 farms in the country. These figures come from the Department of Agriculture. This successful year brought forth \$6,100,000,000 worth of crop, of which \$2,896,000,000 were represented by cereals alone and \$3,650,000,000 worth of animals sold and slaughtered and animal products. The value of the 1913 crop is twice as great as that of 1899; more than a billion dollars over that of 1909, and substantially greater than 1912. Of all the crops, however, it is estimated that 52 per cent will remain on farms where they were produced and that 20 per cent of the animal production will remain. On that basis the cash income is estimated by the Department of Agriculture at \$5,847,000,000.

Corn, with a value of 1,692,000,000, comprised 28 per cent of the value of all crops, although the volume was under the record. The other principal crops with values are given in the order in which they come: Cotton, \$788,000,000; hay, \$797,000,000; wheat—the largest crop ever raised in this country—\$610,000,000; oats, \$440,000,000; potatoes, \$228,000,000; tobacco, \$122,000,000; barley, \$96,000,000; sweet potatoes, \$43,000,000; sugar beets, \$34,000,000; Louisiana cane sugar, \$26,000,000; rye, \$26,000,000; rice, \$22,000,000; flax seed, \$21,000,000; hops, \$15,000,000; buckwheat, \$10,000,000.

"In quantity of estimated production, the record has been broken by wheat, rye, rice, sugar beets, beet sugar and the total of beet and cane sugar," says the report. "Of the remaining crops, oats, barley, cotton and hops have been exceeded twice in production. The estimated productions of the other crops of which separate account was made, was relatively low. The value of the crops of 1913 is high. A new high record in estimated value is made by the total of cereals and separately by cotton, corn, cotton seed, tobacco and sugar beets.

"Dairy products of 1913 are estimated at more than \$84,000,000. Eggs and fowls have an estimated value more than \$578,000,000.

"The wool production of 1913, estimated at \$304,000,000 pounds, was over \$51,000,000.

"The common phenomenon of record yield and crop value below the record, and of record crop value with low production is presented by more than half a dozen of the crops of 1913. If the farmer gets a high price, perhaps a very high price per bushel or other unit of quantity in case of a crop of low production, on the whole, he usually gets low prices for the crops which he produces in abundance.

"The prices of fourteen principal crops average about 20.2 per cent higher than a year ago, and 4.6 higher than two years ago. Their total values average about 3.8 per cent higher than a year ago, and 7.6 per cent higher than two years ago.

"Special reports concerning the sub-tropical fruits of Southern California and Florida indicate, in the form of percentages, the estimated production of these fruits compared with a full crop. In California, the olive crop of 1913 was 80 per cent of a full crop, the figures for 1912 and 1911 being respectively 64 per cent and 87 per cent. Table grapes were produced in California to the extent of 83 per cent of a full crop in 1913, as compared with 89 per cent in 1912 and 85 per cent in 1911. The orange crop of California in 1913 was 80 per cent of a full crop—a low production, due to adverse weather. In Florida the orange crop of 1913 was 100 or, in other words, it was equal to a full crop in comparison with which the crop of 1912 is represented by 125 and the crop of 1911 by 66.

"The lemon crop of California suffered with the oranges and amounted to only 57 per cent of a full crop in 1913, against which is 95 per cent of a full crop in 1912 and 92 per cent in 1911. The grapefruit crop of Florida in 1913 was 74 per cent of a full crop, compared with 105 per cent in 1912, and 57 per cent in 1911. In Florida 92 per cent of a full crop was the production of limes in 1913, compared with 75 per cent of a full crop in 1912, and also in 1911.

"The value of the agricultural exports of domestic production in the fiscal year 1913 was \$1,123,021,469, an amount which has not before been equaled. The re-exports, otherwise called the exports of foreign agricultural products, are estimated at \$12,000,000. The so-called balance of trade in agricultural products is in favor of the exports of domestic farm products by \$296,000,000.

"During the fiscal year of 1913 over 166,000,000 pounds of beef and its products were exported, but this quantity included only somewhat more than 7,000,000 pounds of fresh beef. The quantity of exports of beef and its products has rapidly declined from 733,000,000 pounds in 1906. The exports of pork and its products in 1913 amounted to 964,000,000 pounds, a quantity that is exceeded by the average for the preceding twenty-three years, and with three exceptions by the exports of each of these years.

"The census reports indicate that in 1909 the total amount of farm wages paid to farm laborers was \$651,611,287. This is almost double the cost in 1913, which was \$357,391,920.

"However desirable production on farms may appear to be from the consumers' standpoint, it does not follow that such increased production would result in any increase in the cash income per farm or per capita of farm population, or that prices paid by consumers would be any lower," says the report. "Had the total production in 1913 equaled or exceeded the 1912 production, it seems probable that the cash income per farm would not have been greater and might have been less than in 1912; but it is extremely doubtful whether the cost to the consumer would have been any less because retail prices are promptly raised on a prospect of under-production, but are very slow to decline if there is over-production.

"The high prices paid by consumers, ranging from nearly 500 per cent, in some cases more than the farmer receives, indicate that there is plenty of room for lowering the cost of farm products to consumers and at the same time largely increasing the cash income per farm without increasing farm production.

"This condition is undoubtedly a marketing problem which will have to be solved by better organizations of farmers and improved methods of marketing."

New Federal Reserve Act

Copies of the Federal Reserve Act and the resolution to be adopted by banks which wish to enter the system and of the blank drawn by the organization committees for use of applicants for membership, were mailed Monday to every National bank in the United States. There are 7500 national banks in the country and since the time limit for their entrance into the system was set by Congress at sixty days, Treasury officials have devoted all their energy to give them this sort of formal notification of the enactment of the law. The other 35,000 banks of the United States will be notified as soon as the national bank list has been completed. There is no time limit upon banks of the latter classification.

Automobiles in America

The number of automobiles registered in the United States for 1913 was 1,128,000. New York leads, with California second. Nevada closes the list.

Jameson, Q.C. Corona 2.25

LOS ANGELES PRODUCE MARKET

The price of citrus fruit has been steadily declining with the fair weather and the size of the crop this year. In addition to the decline, the fruit is also of extra fine quality. Yesterday the top price on fancy navel oranges was \$2. Unpacked stock is selling as low as \$1. Lemons have been coming down and are now worth \$3 per box on the best while the juice lemons are selling as low as \$1.25. Grapefruit remains fairly steady as do tangerines and for both of these varieties there has been an exceptionally good call. Limes are down to \$1.25 a basket and are locals.

There are no great changes in the apple market, the quotation on this fruit being on the rise if anything. Many varieties are cleaning up and there is a shortening of the choice. Bellefleurs, best Watsonville stock, are holding at \$2. Gano apples are the cheapest, selling at \$1.75 as an average. Red apples are all holding around \$2.25.

SUMMONS

(No. 6099)
Action Brought in the Superior Court of the County of Orange, State of California, and the Complaint filed in the office of the Clerk of said Court of Orange, by M. K. Keach & Davis, Attorneys for Plaintiff.

In the Superior Court of the County of Orange, State of California.
F. J. Gardner, Plaintiff, vs. Edward M. McKinsey, Grace E. McKinsey, W. F. Harris, John Doe and Jane Roe, Defendants.

The People of the State of California send Greeting to Edward M. McKinsey, Grace E. McKinsey, W. F. Harris, John Doe and Jane Roe, defendants.

You are hereby directed to appear and answer the Complaint in an action entitled as above, brought against you in the Superior Court of the County of Orange, State of California, within four months after the service on you of this Summons, if served within this County; or within thirty days if served elsewhere. And you are hereby notified that unless you appear and answer as above named, the said Plaintiff will take judgment for any money or damages demanded in the complaint, as arising upon contract, or he will apply to the Court for any other relief demanded in the complaint.

Given under my hand and the seal of the Superior Court of the County of Orange, State of California, this 28th day of November, 1913.

W. B. Williams, Clerk.
L. M. Hartwick, Keach & Davis, Attorneys for Plaintiff.

NOTICE TO CREDITORS

In the Superior Court of the State of California, in and for the County of Orange, in the Matter of the Estate of Hugh McIntyre, deceased.

Notice is hereby given by the undersigned executor of the estate of Hugh McIntyre, deceased, to all creditors and all persons having claims against the said deceased, to exhibit the same with the necessary vouchers, within four months after the first publication of this notice, or within the period of time named in the notice, which publication was first made on the 23rd day of January, 1914, to the said executor of said estate, at the office of Steele Finley, 4114 North Main street, in the City of Santa Ana, California.

Dated this 23rd day of January, 1914.

JOHN MCINTYRE,
Executor of the Estate of Hugh McIntyre, deceased.

Estate of Abel S. Dunham, deceased. Notice is hereby given that the undersigned executor of the estate of Abel S. Dunham, deceased, to all creditors and all persons having claims against the said deceased, to exhibit the same with the necessary vouchers, within four months after the first publication of this notice, or within the period of time named in the notice, which publication was first made on the 23rd day of January, 1914, to the said executor of said estate, at the office of Steele Finley, 4114 North Main street, in the City of Santa Ana, California.

Dated this 23rd day of January, 1914.

JACOB FISHER.

NOTICE FOR PUBLICATION OF TIME FOR PROVING WILL, ETC.

In the Superior Court of the County of Orange, State of California.

In the Matter of the Estate of Laura Johnston, deceased.

Notice is hereby given that Friday, the 6th day of February, 1914, at 10 o'clock a.m., or at such day as the Court may fix, in the Court Room of Department No. 1 of this Court, in the City of Santa Ana, County of Orange, State of California, has been appointed as the time and place for hearing the application of W. D. Johnston and George W. Tighe praying that a document now on file in this Court, purporting to be the last Will and Testament of the said deceased, be admitted to probate, that Letters Testamentary be issued thereon to W. D. Johnston at which time and place all persons interested therein may appear and contest the same.

Dated January 26, 1914.

W. B. WILLIAMS, County Clerk.

NOTICE FOR BIDS FOR ROAD OIL

Notice is hereby given that sealed bids will be received by the Board of Supervisors of the County of Orange up to 11 o'clock a. m. on Wednesday, Feb. 1, 1914, and the publicly opened for furnishing the County of Orange with 1000 barrels or more or less, as may be required by said county, of crude oil free from water and of not more than 15° gravity. Sold off to be designed at such time as the Board of Supervisors shall designate by the said Board of Supervisors. Bidders to give price f. o. b. Los Angeles, Cal. A certified check in the sum of \$100.00 must accompany each bid.

The highest bidder will be awarded the contract to give a good and sufficient bond in the sum of \$200.00

The Register's Clearing House for Big Bargains

Young Men to the Front

Henry E. Veenstraten of Santa Ana and Sidney E. Saunby of Tustin, two enterprising young men, have each bought land in the Santa Ana Yucca & Orchards Company No. 2, on the south mesa in the Yucaipa Valley, and will proceed to set the land to Wine-saps and Rome Beaufortes. They have also leased one hundred and thirty acres in another part of the valley which they will at once prepare to plant to beans, for which the soil and climate are well adapted. They are now assembling their outfit and will go to the valley next week.

These young men see clearly the fine opportunity in the valley. A goodly number of young men who went to the valley two and three years ago have made good and there are still many fine opportunities.

Such splendid land, under such a magnificent modern irrigation system, and favorable climatic conditions, will not be long on the market. Fasten to some of it while the prices are low, the payments easy at 6 per cent.

Anyhow, go with us on an automobile trip, up in the morning, back in the evening, through Corona, Riverside and Redlands and up to the 3000 foot elevation and see the magnificent development. It will do you good for what you will see and learn. Only 64 miles from Santa Ana. Small or large tracts. We go every day. Phone 970W. 504 North Main St., Santa Ana.

J. R. Schooley

ORDINANCE NO. 107.

An Ordinance for the Police Regulations of Public Pool and Billiard Rooms.

The Board of Supervisors of the County of Orange do ordain as follows:

Section I. It is hereby declared unlawful for any person, in charge of any public pool or billiard room; or place, open to the public, where pool or billiards is played, to allow or permit any minor, under the age of 21 years, to play in, or the succeeding day, or allow or permit any person to play or remain therein during said period.

Section II. Nothing in this Ordinance shall prohibit the owner or person in charge of any such pool or billiard room from being or remaining in such pool or billiard room during the period specified in Section I of this Ordinance.

Section III. No person in charge of any public pool or billiard room; or place open to the public, where pool or billiards is played; shall allow or permit any minor, under the age of 21 years to play in, or the succeeding day, or allow or permit any person to play or remain therein during said period.

Section IV. Any person violating any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor upon conviction thereof shall be punished by a fine not exceeding Five Hundred (\$500) Dollars, or by imprisonment in the county jail not exceeding six months or by both such fine and imprisonment.

Section V. All Ordinances and amendments thereof, heretofore passed, which are in conflict with this Ordinance are hereby repealed.

Section VI. This Ordinance shall take effect fifteen days after its passage, and before the expiration of said fifteen days shall be published with the names of the members of the Board and against the same for at least one week. In the Santa Ana Daily Evening Register, a newspaper of general circulation published in the County of Orange.

Signed by the Chairman of said Board of Supervisors, this 27th day of January, 1914.

T. B. TALBERT, Chairman of the Board of Supervisors of the County of Orange.

And attested by the Clerk of said Board, this 27th day of January, 1914.

W. B. WILLIAMS, Clerk of Board of Supervisors.

TEARING DOWN OLD STRUCTURE

Work of Destruction Preliminary to that of Construction

With all the rapidity that weather and other conditions permit, the old Spurgeon block at the corner of Fourth and Sycamore is being torn down preparatory to the construction of a four-story building in its place.

The Spurgeon Realty Company stores on Sycamore street have all been occupied, and business life there has settled down just about as though radical changes in location had not been made recently.

It is the intention of R. L. Bisby, manager of the Spurgeon company, to hasten the work as rapidly as possible. That same policy was followed in the construction of the two-story building at the corner of Third and Sycamore, and that building has been completed for nearly two weeks, while other buildings commenced about the same time are not yet ready for the finishers.

**IRRIGATION COMPANY
IN NEW QUARTERS**

Orange Post: The Santa Ana Valley Irrigation Company's office was moved on Saturday from its temporary location in the Union Mercantile Company's store to the handsome new building on North Glassell street, just completed as permanent headquarters for the company.

Though many of the stockholders think the building too small, it is conveniently arranged and handsomely finished and large enough to serve the present needs of the company fairly well.

The front of the building is occupied by the office of the secretary and

WITH A SPLENDID RAINFALL THE YEAR 1914 IS GOING TO BE MARKED BY PROSPERITY

Rains of the last week are another proof that 1914 is going to be one of the greatest years in the history of Orange county.

With six and a half inches of moisture soaked into the ground since January 14 to a depth of several feet, there is no reason why this county will have a single failure in crops. Of course, some more rains will be needed, and there is no question but that they will come all in good season, for Nature is smiling upon this favored section, a habit that Nature has.

Oranges and lemons are in fine trim. Celery is bringing a good price. The sugar beets have been planted or soon will be planted, and the rains insure the growers good crops. That means money, indeed, for the sugar wages.

**IN ONE MINUTE! CLOGGED NOSTRILS
OPEN---COLDS AND CATARRH VANISH**

Stops Nasty Discharge. Clears Stuffed Head. Heals Inflamed Air Passages and You Breathe Freely.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it. Apply a little in the nostrils and instantly your clogged nose and stopped-up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone!

Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.—Advertisement.

his assistants. Back of this is the directors' room and at the rear is the assembly room for the stockholders' meetings. This room and that of the directors can be thrown into one by

means of a sliding partition. The officers of the company will take great satisfaction in having a permanent and convenient place for the transaction of their business.

GARDEN GROVE NEEDS A PACKING HOUSE

Garden Grove News: It is beginning to be apparent to many of the Garden Grove growers that a local packing house is needed. Great quantities of walnuts go out of this section to be packed at other places, which might just as well be handled here.

The orange is coming to its own in the Garden Grove section as never before and should be handled at home. Beans could also be handled and fitted for the market right here where they are grown.

It has been suggested that the Santa Fe railway be asked to run a spur track across from near Anaheim to tap this whole section and also go down toward Huntington Beach after the celery and sugar beets.

One point raised against a packing house is that there are better freight facilities and rates elsewhere, but it has been urged that this can be overcome by the right methods.

**LOOKING OVER THE
REGISTER BUILDING**

A. R. Smith of Orange was in Santa Ana this week looking over some of the two-story brick buildings here. He examined the Register building from basement up, and was highly pleased with its design and construction. Mr. Smith is interested in the recent purchase of an eighty-foot frontage on South Glassell street, Orange, adjoining the Grotto block, and upon this purchase a two-story brick building is to be erected.

BOND ELECTION FOR \$50,000

Orange News: The Orange grammar school board, in session at the Glassell street school this afternoon, voted to call a bond election in the amount of \$50,000 for the construction of an intermediate high school for the use of the sixth, seventh and eighth grades of the district.

The date of the election was set for Saturday, February 28. It is planned to erect the new building on the Glassell school site, moving the old building back to Lemon street. The new building will face on Glassell street.

It is believed that this plan will meet with general approval over the district, and that in consequence there will be but little opposition to the bond issue.

The need for additional school facilities is shown by the fact that at the present time the schools are so crowded that about forty first-grade pupils are now housed in a small building on East Maple avenue. The normal growth of the schools is in the vicinity of 125 per year and with this increase next year to face, provision must be made for more school room.

The Glassell street building is not to be retired from service, but will be continued in use.

County Superintendent Mitchell met with the school board and Principal Smith this afternoon.

SCHOOL GARDENS ARE BEING PLANTED

Anaheim Herald: Members of the agricultural class of the Anaheim grammar school are busy at work preparing a tract of ground on West Center street, ready to plant vegetable gardens.

The ground, which has been well tilled, is being marked off into small plots, and the plots staked off for individual gardens.

Each student is given a garden plot of his own, 6x12 feet, and he is expected to plant the seed and care for the garden, his name being placed at the corner of his plot. A pathway divides the various plots. There are 130 individual plots and ground reserved for larger or special plots which will be used to grow vegetables.

It is expected that tomorrow the planting of seeds and the transplanting of some vegetables, which have already been grown in the lath house at the grammar school, will commence. Lettuce, carrots, onions, radishes, beets and spinach will be planted at present, and later on beans and peas will be grown.

The agricultural movement is considered one of the most practical that has been introduced into the grammar schools for several years. Not only the boys in the seventh and eighth grades are taking up the study, but the girls are also busy "farming." Some of the girls were such successful gardeners last year, which was the first of the study, that their mothers purchased their vegetables instead of patronizing the vegetable vendor.

It is the aim this season to grow sufficient vegetables for use in the cooking department at the Fremont school.

The study of plant life as well as an hour spent in the open air is very beneficial to both teacher and student, and has proved to be a most restful and profitable study and occupation. For the restless or nervous student and the worn-out teacher the school gardens make a great change, and they will return to the schoolroom ready to settle down to study.

ARE FEEDING BEET PULP AND BEAN STRAW

Anaheim Gazette: Three hundred head of cattle are corralled near the Anaheim sugar factory, having been sent here from Compton to be fattened upon beet pulp, molasses and bean straw, the straw being shipped here from Smelter. The stock will remain here until spring, at which time they will be sent to the Los Angeles markets. J. M. Snodgrass of Los Angeles is owner of the cattle, and makes frequent trips to this city in the interest of them.
